- The ability to review and evaluate practice in order to bring about change and get the best outcomes for young people and staff within the organisation

- Understand the evidence underpinning the Early Career Framework, effective teaching and how pupils learn, and how to implement that within classrooms
- Weave together curriculum, assessment and adaptive teaching to lead coherent and sustainable improvement
- Professionally develop others, creating change and supporting school culture

Our Approach

Delivery of the curriculum is grounded in TDT's values of:

- SMART - we think about what the evidence tells us, but we also really care about how things are done
- HEART - it's not just taking the evidence base and implementing it any old way, it needs to be done in the right way if you want to have that sustainable impact
- HUMBLE - we recognise that there is no single perfect answer to any situation - participants will come from different environments, different schools, different contexts - and we need to understand the limits of what the evidence tells us at times and use our judgement

“

*The course material is **utterly brilliant**. Such **high quality** and **carefully crafted**. The **spirit and ethos of TDT** is forefront.”*

“

*Facilitator material is **inspirational** and **purposeful, enjoyable** and **thought-provoking**. **Boy, have TDT got it just right!**”*
